*"The Just Good Work Platform has been a fantastic addition to our due diligence processes. The pre-departure and post-arrival information enables workers to make more informed decisions."*

**Carly Bilsbrough,**  
Head of CSR, The Very Group

**A dynamic communication, education and engagement tool, demonstrating a pro-active approach to preventing and tackling worker exploitation risks across supply chains**

## Level 1 Customisation All of the content of the free app plus:

- ✓ Give workers access to **consistent, timely and specific information** and guidance necessary for their employment by **populating with your own material and links**
- ✓ Practical and cost-effective route to **direct communication with both internal and supply chain workers**
- ✓ User data gives **live visibility of worker experience during recruitment and at work** enabling you to check process, highlight gaps in due diligence, identify trends and create improvements
- ✓ Check recruitment and employment processes reflect the local community and are not discriminatory with **simple equality data**
- ✓ **App users are anonymous** so no GDPR issues

## Level 2 Customisation All of the content of level 1 plus:

- ✓ Custom pre-departure and induction training, skills checks and handbook content help to **ensure the right people are hired for the right jobs**, lowering onboarding costs and improving retention
- ✓ Workers can be categorised through unique identifiers: **track downloads and group into locations/shifts/employers and compare branches/sites/suppliers** throughout the supply chain to identify best practice and pinpoint gaps in due diligence
- ✓ Target actions, interventions and remediation based on **real time data from spot questions and surveys** on the issues of the moment
- ✓ **Messaging function with 2-way communication** – communicate with everyone, or categorised groupings, according to the unique identifiers
- ✓ **Send documents and verify acceptance** – swiftly and effectively managing contracts, assignment schedules, health and safety notices and training briefs
- ✓ **Integrate with existing HR systems and feedback mechanisms**, giving supply chain workers remote access without setting them up on your system
